

THE ADDLED CHILD!

One day Thomas Edison came home and gave a paper to his mother. He told her “My teacher gave this paper to me and told me only to give it to my mother”.

His mother’s eyes were tearful as she read the letter out loud to her child. “Your son is a genius. This school is too small for him, and we don’t have enough teachers to train him. Please teach him yourself.”

Many years later, after Edison’s mother had died. He was looking through old family things.

Now as one of The Greatest inventors of the century, he suddenly saw a folded piece of paper in the corner of a desk drawer. He took it and opened it up. On the paper was written: “your son is ADDLED (MENTALY ILL) we won’t let him come to school anymore.”

Edison cried for hours. And then he wrote in his diary: “Thomas Alva Edison was an ADDLED CHILD, that by a HERO MOTHER, became the genius of the century.”

THE MORAL: A mother’s love and upbringing can help change the destiny of a child.

Happy Mother’s Day

A patient went to the Doctor and asked him to check his leg!

"Something's wrong. Just put your ear up to my thigh, you'll hear it!"

The doctor cautiously places his ear to the man's thigh only to hear, "Give me \$10! I'm desperate! I need \$10!"

"I've never seen or heard anything like this before! How long has this been going on?" the doctor asked.

"That's nothing, Doc. Put your ear to my knee."

The doctor put his ear to the man's knee and heard it say, "Please! I really need \$5! Just \$5! Please! I'm desperate!"

"Sir, I really don't know what to tell you. I've never seen anything like this." The doctor was truly dumbfounded.

"Wait, Doc, that's not all of it. There's more. Just put your ear down on my ankle," the man urged him.

The doctor did as the man said and was amazed to hear his ankle plead, "Please, I just need \$20! Please lend me \$20, please! I am really desperate!"

"I have no idea what to tell you," the doctor said. "There's nothing about it in any of my books," he said as he frantically searched all his medical reference books. "However... I can make a well-educated guess.

Based on life and all my previous experiences, I can tell you with some certainty, that your leg seems to be broke in three places."
